Note: Country consumption data assumed for import values. Only major importers included here.

Blank spaces indicate no reported data, while a zero (0) indicates either no reported data or 0 MT of methyl bromide consumption.

- Between 1991 and 1999, importation of methyl bromide by Article 5 countries increased by approximately 61 percent, while importation by Non-Article 5 countries decreased by approximately 32 percent (UNEP/TEAP 2001).
- The reductions in 1999 as designated for Non-Article 5 countries were significantly surpassed, according to UNEP/TEAP (2001). Overall production decreased by 27 percent and consumption by 36 percent for Developed countries.
